

MAKEUP DIRECTIONS

PANCAKE MAKEUP:

Crumble $\frac{1}{4}$ - $\frac{1}{2}$ tsp makeup into mixing cup. Add a few drops water to form a thin paste. Apply a thin layer with flat end of sponge.

Hint: Apply a very thin coat of A & D ointment or Vaseline to the face before applying pancake makeup. This fills in the pores and protects the skin from drying out. After removing the makeup, apply a moisturizer.

Crème: Apply to "T area" and cheekbones. Blend until face is evenly covered. Use setting powder.

BLUSH:

Apply lipstick and blend on cheekbones or use your own blush.

LIPSTICK:

Apply lipstick, then lightly powder with setting powder. This helps keep lipstick from smearing. Repeat if necessary.

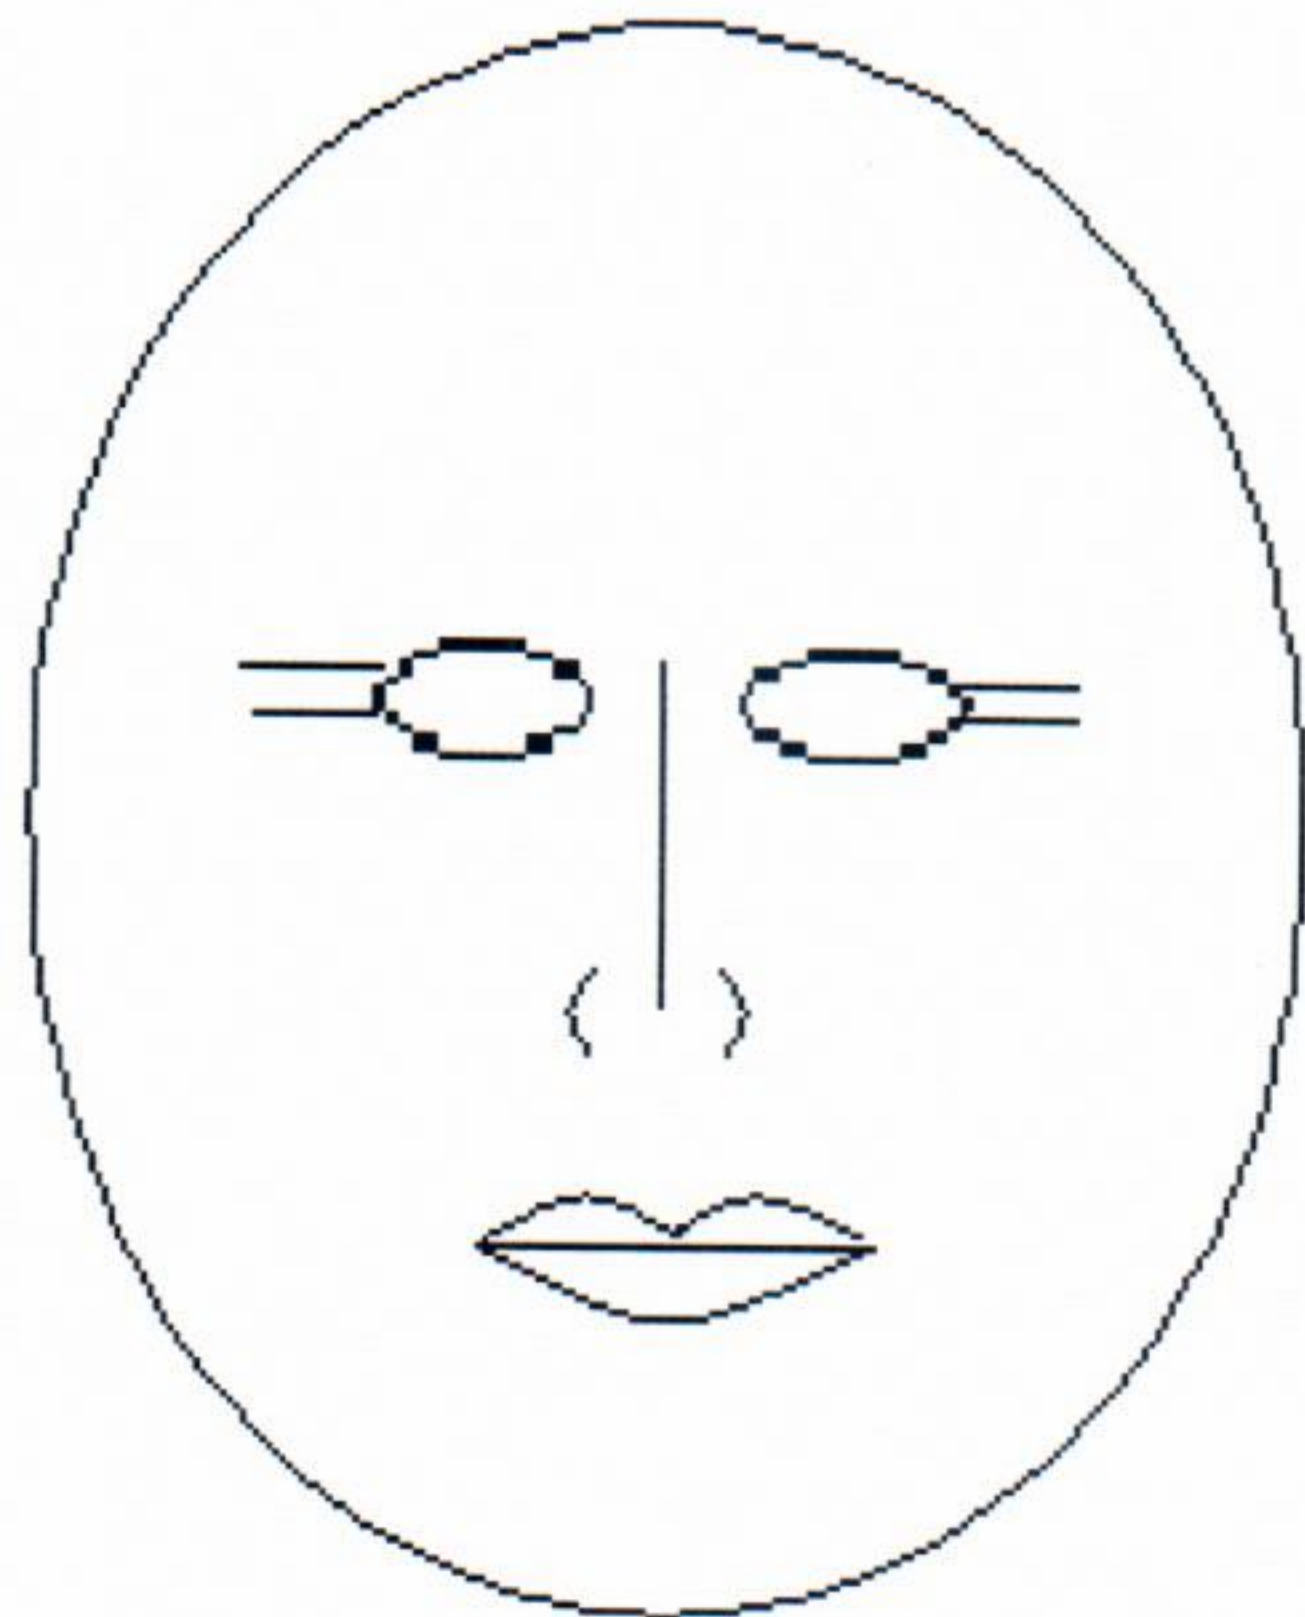

EYES:

Apply false eyelashes.

Use black mascara on top & bottom lashes.

Apply eyeliner to top lid at base of lashes, on outer $\frac{1}{3}$ edge of bottom lid. Extend ends out in parallel lines.
